4. Aging and HIV

- a. *Report back from the PLHIV (PHA) Forum at the PAN Fall Conference:* Pacific AIDS Network (PAN) organizes an annual Forum for persons living with HIV/AIDS at its fall conference. The Forum is an opportunity for the HIV positive community to identify and reach a group consensus on priority advocacy issues for PAN to champion over the next year. For example, the PLHIV Forum identified stigma related to HIV as a priority: since then, the BC People Living with HIV Stigma Index was brought to BC. Similarly, Positive Living Positive Homes came from the Forum's identification of housing as a critical and priority issue. The 2016 Forum identified the following priorities: HIV and aging; long-term survivors and aging; peer based advocacy; and promotion of harm reduction.
- b. *Group discussion around HIV and aging:* Learning and planning around this priority item – has your study explored or gathered data around HIV and aging (if so, please share)? Have you found any research or knowledge gaps around HIV and aging?

5. CAHR: Thinking Back to Montreal, and Looking Ahead to CAHR 2018 in Vancouver

- a. *Key learnings from CAHR 2017 in Montreal:* For those who attended, please share. Were there issues and topics that came up and may have relevance for the Vancouver meeting?
- b. *Group discussion about CAHR 2018 in Vancouver:* What do projects and organizations want to see at CAHR in Vancouver? Does the CBR or CBO community want to form a working group to organize an ancillary event?

6. Break

7. Project Updates: RSVP to Heather Holroyd (heather@pacificaidsnetwork.org) if you would like to share a project update. At the meeting, please provide a brief update and reflect on the following three questions: What has been working well? What has been tricky? What would you do differently in the future?
