

## Indicators Related to Foundational Activities in the CBO Sector Logic Model

Indicator 43: Percent of CBOs linked with a provincial network (e.g. PAN) are percent of them that complete a network survey	
Description	<ul> <li>Percent of CBOs providing HIV/HCV programs and services that are linked with at least one provincial network (e.g. PAN, Red Road HIV/AIDS Network, etc.), and the percent of them that complete a network survey.</li> </ul>
Significance	<ul> <li>Support from backbone organizations is a critical condition for successful collective impact initiatives (Turner, 2012). Backbone organizations are intended to: guide vision and strategy, support aligned activities, establish shared measurement practices, build public will, advance policy and mobilize funding (Turner, 2012).</li> </ul>
Data source	CBO administrative data
Possible disaggregation	<ul> <li>Type of partnership between CBO and provincial network</li> <li>Specific network survey completed</li> </ul>
Limitations	Content of network surveys vary substantially between provincial networks
