

# The *Patient Engagement In Research Scale (PEIRS)* Study

We invite you to participate in an online survey to validate the Patient Engagement in Research Scale (PEIRS)  
PEIRS is a tool to measure how meaningful was engagement of patient partners in health research projects

You are ELIGIBLE to participate IF you:

- Communicate in English
- Have been a patient partner (patient, family member, caregiver, or friend) on a research project team
- Are aged 18 years or older

For more information, please contact:

**Clayon Hamilton, Researcher**  
University of British Columbia, Canada  
[chamilton@arthritisresearch.ca](mailto:chamilton@arthritisresearch.ca)

 [Click here to begin the PEIRS Study](#) 

Participation is a two step process:

**Step 1.** You will be screened online for your eligibility to participate in this study

**Step 2.** If you are eligible, you will be emailed a link to the online survey

You will likely need 20 to 30 minutes to complete the survey
